- 1.9 The judge must, where possible, be available for questions of participants after the show.
- 1.10 The Board will annually appoint a show committee of undetermined size but consisting of at least two people who will be the authorised representative of the Board at shows. This show committee will appoint a chairman of the show committee. Only the chairperson of the show committee, who is also the authorised representative of the Board, may communicate on behalf of the show committee with the judge/s and show organiser before or during a show.
- 1.11 Every exhibitor is responsible for the inoculation of his/her horses that participate in the show. The Society and show organiser will accept no responsibility for any inoculations. No miniature horse shall be permitted entry onto the show grounds unless they are accompanied by a valid passport.

2. HEIGHT VERIFICATION

- 2.1 Under 12 months a foal may **not exceed** 84cm.
- 2.2 12 to 24 months, foals may **not exceed** 90cm.
- 2.3 24 to 36 months, horses may **not exceed** 95cm.
- 2.4 Above 36 months horses **may not exceed** 95cm. Base mares and geldings may **not exceed** 100 cm.
- 2.5 The show age of a horse is his actual age on the first day of the show.
- 2.6 At the National Championship a competent official assigned by the show committee and witnessed by a board member or inspector must measure horses. The measuring of horses will take place at a time and place that was allocated beforehand by the show committee. The horse's height must be verified on a hard, level surface, preferably concrete or paving. The measuring device will be an acceptable device approved by the board. The results will be recorded by the board member next to a list of participating horses as supplied to him by the show committee. These results will immediately be handed to the show organiser and problem cases will be pointed out. The show committee in the presence of the exhibitor will immediately attend to such cases. The show organiser is responsible for the list of horses entered in the show by the breeders.
- 2.7 Measuring Method:
The height of the horse will be verified by measuring the vertical distance from the highest point of the withers to the ground with the front two legs vertical and in line or parallel to the measuring device. The horse is not allowed to stretch. The horse's head and neck have to be in a natural position. Unless the exhibitor accepts the first measurement obtained, each horse shall be measured one time from each side, and one additional measurement, to consist of a total of three. The average of the three measurements will be accepted as the horse's show height. No height allowance will be made for excessive hoof growth. Other horses may not be measured until a final measurement is obtained on each horse. The same place and device must be used for all horses at one show.

3 SHOW ORGANISER

- 3.1 The show organiser / convenor will accept no additional entries for breeding classes after the closing date without the approval of executive committee.
- 3.2 The show organiser will see that the judge(s) of the particular show receive a copy of the official show rules, breed standards and a schedule of classes, sent by certified mail or by email at least two weeks prior to the show date.

- 3.4 The Board will appoint approved and qualified judges.
- 3.5 Replacements of entries will not be allowed by show organiser with 3 weeks or less before the show for horses sold or deceased without the approval of the executive committee.

4 SHOW OFFICIALS

- 4.1 The show organiser must provide adequate and competent ring stewards to manage the arena and assist the judge(s). The Ring Stewards must help the Judge, not advise him. He/she will carefully refrain from discussing or seeming to discuss the horses or exhibitors with the Judge.
- 4.2 The Ring Steward will act as mediator between the judge and the exhibitors. The Judge will request the ring steward to move and place horses as he/she advises. The Ring Steward will allow adequate space between competing horses to facilitate good judging and safety.
- 4.3 A Gate marshal may also be appointed. The gate marshal will ensure that horses are lined up and ready for the next class and determine when the gate closes unless over ruled by the Judge.

5 REGULATIONS GOVERNING JUDGES

- 5.1 Good judging depends upon a correct observance of the fine points and the selection of the best horses for the purpose as required by the conditions of the class. A judge serves three interests: his/her own conscience, exhibitors and spectators. He/she should make it clear that the best horse will win. No attention must be given to the handler.
Miniature horses are bred in many different types. It is very important that the judge is not biased to a miniature horse that represents the judge's background. The judge must place the horses as to the best horse of all types that are exhibited before him. **(See paragraph 9 and 11.3)**
- 5.2 Grounds for removal of a judge from the approved list will include, but not be limited to the following:
 - failure to comply with the rules and regulations of the society.
- 5.3 A judge is required to acquaint himself with the official rules and regulations of the Society. Judges will be suitably attired to appear before an audience.
- 5.4 A Judge will not visit the horse stable area, nor speak with owners, trainers and exhibitors prior to judging. He/she must not see or discuss any horse entered for the show with anybody before or during the show.
- 5.5 At shows where only one judge officiates, placings may be discussed by the judge with the audience after judging of the class.
- 5.6 Every championship must be judged as a new class

6 DRUGS, ARTIFICIAL AIDS AND IRRITANTS

- 6.1 The use of stimulants or depressants or any drug affecting the showing of a horse is strictly forbidden. The exception is medication necessary for treatment of an illness or injury.
- 6.2 Any horse showing evidence of the use of ginger or other irritants shall be disqualified.
- 6.3 No false or artificial tails or manes or other apparatus may be used and will result in disqualification of the horse.

- 6.4 No horse having had surgery for purely cosmetic purposes will be permitted to show.
- 6.5 In breeding classes no ribbons, glitter or any decorations are allowed.
- 6.6 Plaiting of tail, mane and forelock are optional. The tail may also be pulled. The judge may request that the tail be pulled away so hindquarters are better visible if so desired.
- 6.7 The mane may be thinned out and clipped open for a halter path. The mane may also be completely clipped.
- 6.8 Horses should optionally be clipped. If the horse is not completely clipped, then the hair around the pasterns must be trimmed and ears should be clipped open or trimmed as well.
- 6.9 Horses are to be shown in an acceptable show halter. No stable halters may be used in showing classes. Horses should always be under control of the handler.
- 6.10 Hooves must be short and neat. Hooves may be sand papered and/ or blackened with polish. White hooves may be varnished.
- 6.11 Nobody is allowed to change or hide the natural colour of the horse's body and/or legs. The natural colour of the horse's mane and tail may however be brightened.

All foals inside the arena must be either held in the arms of a handler or be led around in a halter by a second handler while the mother is being judged. The handler must make sure that the foal does not disturb any of the other exhibitors or their horses and that the foal does not increase the difficulty of anybody showing their horses.
- 7.3 Any horses that leave the arena for whatever reason after the gate is closed will be disqualified.
- 7.4 Names of horses being exhibited will not be made known to the judges prior to the show.
- 7.5 Exhibitors will be issued a number for each horse entered to be displayed on the back of the handler or on the back of the driven cart. This number is valid for that particular horse for the whole duration of the show. Numbers are issued after receiving a deposit that will be forfeited if the number is lost or damaged.
- 7.6 Conduct or coaching (inside or outside of arena) designed to distract a horse or otherwise interfere with the showing of an exhibitor's horse will not be tolerated. Offenders will be asked to leave the arena.

The deposit will be forfeited if the appeal is unsuccessful.
- 8.3 Protests shall be adjudicated by the Board or Show Organiser and committee. The case will be handled at the next council meeting and the decision of the Board will be final.
- 8.4 Poor conduct of breeders against judges or other breeders is punishable with R2000 or suspension according to the constitution. (par 8.2)

9 BREED STANDARD AND RULES

A Breed Standard is the Standard of perfection we strive for in an ideal Miniature horse.

BREED OBJECTIVE; To produce the smallest possible perfect miniaturised horse with no specific breed or type of horse to be the emphasis.

- 9.1 **GENERAL IMPRESSION;** The South African Miniature Horse is a striking, small, well balanced horse that if all reference to size were eliminated, would have the same conformational proportions of other full sized light breeds. The mares demonstrate refinement and feminine qualities. The mature stallions show boldness and masculinity. The general impression is to be a balanced individual regardless of size with symmetry, strength, agility and alertness. Movement is strong, natural and athletic. In motion the horse will exude athleticism as demonstrated by suppleness of the shoulders extending into forearm and knees, while engaging the hindquarters, with fluid articulation of hocks. In judging, all things being equal, preference must be given to the smaller horse, but never compromising correct breed type, overall construction and soundness for size alone.

TEMPERAMENT; Temperament is reflected in its personality and behaviour. The South African Miniature Horse is intelligent, curious, gentle, sensible, willing to cooperate and easy to train.

SIZE; Measured at the highest point of the wither, a mature horse (5 years or older) must not exceed 95 cm be it a mare or a stallion. Horses younger than 2 years old and geldings are to comply with the height requirements as set out in the show rules.

COLOUR; Any coat colour, markings, pattern, eye colour are equally acceptable in SA Miniature horses.

HEAD; The head is eye catching, triangular in shape and comparatively small in proportion to the length of neck and body. The overall image of the head should be refined with distinct features and quality, yet reflecting its gender. The forehead is broad with large, expressive, prominent eyes. The eyes are set well apart and are placed approximately 1/3 the distance from the poll to muzzle. The distance between the muzzle and eyes is comparatively short. A profile may be straight or slightly dished below the eyes, blending into large nostrils on a small, refined muzzle.

BITE; when viewed from the side, the meeting point of the centre incisor teeth should be equal and even. A slight deviation, no more than the width of one tooth's surface is permissible without fault in mares and half a tooth in stallions. The accuracy of the bite may vary according to age. As the premolars and molars move into location, the alignment of the jaw could vary during this process. Bundling of teeth, if not severe, is permitted provided it does not alter the bite.

EARS; The ears are set well apart on top of the head and carried alertly. They are medium in size and length, well-shaped with pointed tips curving slightly inward, in proportion to head size with attentive mobility.

NECK; The neck is set on the top of a well-angulated shoulder, departing well above the point of the shoulder and blending into the withers, giving the impression of the neck sitting on top of the withers rather than in front of them. The slender neck is slightly arched forming a gentle **convex** curve from behind the poll into the withers. Its length is in proportion to body with the top line of the neck being considerably longer than the bottom line of the neck. Length of the neck should be in proportion to size of the horse. Throat latch area should be clean and fine with sufficient space for the windpipe & gullet (never coarse), allowing flexion at the poll and normal respiration.

SHOULDERS; The shoulders are clearly defined as it has a long, sloping, well angulated (45-50 degrees), allowing for a free swinging stride and alert, up-headed/neck carriage.

THE FOREQUARTERS; Limbs should be fine boned with well-muscled forearms. Forelegs should be placed under the shoulders (plum line front/perpendicular). The pasterns & hooves should ideally slope to about 45°.

BODY; The top line of the body starting at the withers has a short back, close coupling, broad loins, which flows into a deep flank and well sprung ribs. The top line flows from the back and coupling into a long, slightly rounded, well-muscled croup and is smoothly rounding at the hip. The tail is well set. The underline of the body should be long but not tucked up at the flank. At maturity, the top of the hip must not be higher than the withers. The chest is medium width, with defined muscular development, and sufficient depth. The length of the foreleg should be at least longer than the depth of the body. The length of the body should be equal to each of the forequarter and hind quarter, each making up approximately a third of the horses' length.

THE HINDQUARTERS; Well coupled with strong loins, and well-rounded quarters, and well-muscled thighs & gaskins. Fine boned cannon bones & pasterns. Hocks and rear cannons should be parallel when seen from behind. (NO COW HOCKS, BOWED HOCKS). The tail is placed high, well carried and gay.

LEGS; The legs appear longer than the body is deep, yet proportional in the mature horse. The legs possess an appearance of over-all substance with refinement. Legs are structurally correct and parallel when viewed from the front and back with hooves pointing directly ahead. The pasterns have sufficient length and angulations to provide a light, springy-~~step~~ stride. The front legs possess a well-muscled forearm, relatively long in proportion to a short cannon. Front pasterns slope 45 to 48 degrees and blend smoothly with no change of angle from the pastern to the ground. The rear leg structure must demonstrate ~~good~~ correct angulations and proper flexion of the hocks for athletic movement; have the stifle placed well forward and low in the flank area with thighs and gaskins well-muscled. The gaskin is relatively long in relation to the cannon. The rear cannons are perpendicular to the ground when points of hocks and buttocks are in the same vertical lines. Rear-pasterns slope 40 to 50 degrees and blend smoothly with no change of angle from the hooves to the ground. The hooves are trimmed to a practical length and have sufficient toe length and angle with spread of the heels for the size and proportions of the animal. Hooves should not be boxy and front hooves are more rounded than the rear hooves which are narrower and more pointed.

BALANCE; There should be balance and proportionality between the hindquarter, body and forequarter and between the length of leg and depth of body. The length of neck and size of head should match the rest of the horses' proportions creating an overall impression of balance, functionality and matched proportions.

MOVEMENT; Free flowing light & true (straight) movement with good reach rhythm and impulsion. The walk is a natural free flowing, four beat gait with length of stride

proportional to the height and length of leg. The trot is a natural forward, free flowing two beat diagonal gait where the knee and hock are synchronized in their elevated, flexed and extension movement. When viewed at a walk and trot from the front, the horse will replicate the structural correctness of its stance. Knees and hocks well flexed but not hackneyed. The Miniature horse is agile & active but must not move close or wide behind.

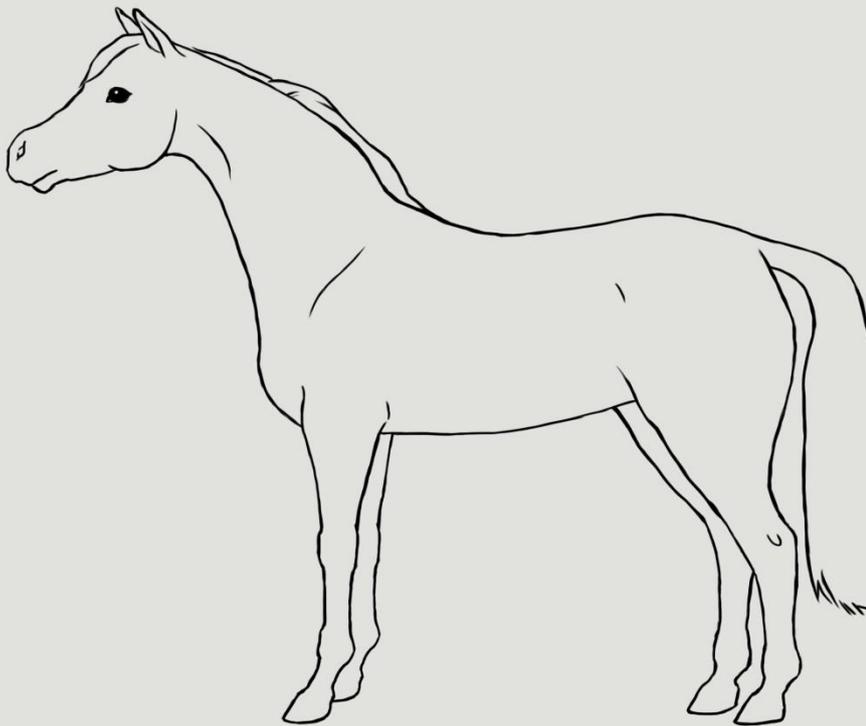

The horse's conformation allows them to trot willingly and freely at liberty or when pulling a pleasure cart.

COAT:- Well-groomed and presented, with ample mane & tail and with fine hair quality. Clipping the horse is optional; however, the concept of a horse show is to present the horse in its best possible impression. Therefore, trimming is acceptable. Applying artificial coloring is to be discouraged.

TYPE. SA Miniature horses are found primarily in two Types with both types resembling light horse Breeds. A Pleasure horse type that has more refinement and a lighter conformation and a working horse type that has stronger muscling and heavier bone. Skeletal structure dictates size, type, balance, and function. Neither of these types takes preference over the other provided they are equally compliant with the breed standard and have sound conformation. Horses with strong Pony characteristics and features are not compliant with the modern Breed Standard.

JUVENILE CONSIDERATIONS; The body of the junior (below 4 years of age) horse demonstrates stretch and frame to be filled in with muscling appropriate for its age. A mature adult look is not desirable.

DISQUALIFYING FAULTS:- Mono cryptorchidism & cryptorchidism (one or no testicles) at 4 years or older. Over or under bite that exceeds one width of the surface of an incisor. Dwarfism and dwarf characteristics and traits are a disqualifying physical condition. A horse carrying of dwarf genes, while undesirable, is not a disqualifying fault.

10 SHOW DISQUALIFICATIONS

10.1 Inheritable deformity: If in doubt, the show judge may request the opinion of the show veterinarian. Injuries, which are temporary, should not be penalized unless they impair the general appearance and/or action of the horse.

10.2 Stallions older than three years should have both testicles descended.

10.3 Height restrictions:

- Under 12 months a foals may **not exceed** 84 cm.
- 12 to 24 months, foals may **not exceed** 90cm.
- 24 to 36 months, horses may **not exceed** 95cm.
- Above 36 months horses **may not exceed** 95 cm.
- Base mares and geldings **may not exceed** 100 cm.

10.4 Overshot/Undershot: Stallions may be ½ the thickness of a tooth over- or undershot and mares may be the thickness of a tooth over- or undershot. Judges **MAY** check the teeth of all horses at shows except that of geldings.

10.5 Eliminations :

10.5.1 If, in the opinion of the judge, a horse behaves in an unruly or dangerous manner or displays continued disobedience, he/she is entitled to eliminate the horse from the competition.

10.5.2 A horse leaving the arena, without the permission of the judge/s will be eliminated.

10.5.3 Horses, deemed to be unfit for competition by the ~~Ground Jury~~ show committee, will be eliminated.

10.6 Misuse of the Whip / Showing Cane :

10.6.1 Excessive use of the hands or leading rein in addition to/ or instead of the whip is prohibited

10.6.2 The whip, hands or leadrein cannot be used to vent a handler's temper. Such use is always excessive.

10.6.3 The use of a whip, hands or reins on a horse's head is not allowed at all.

10.6.4 A horse should never be hit more than three (3) times for any one (1) incident.

11 HALTER CLASS: GENERAL RULES

11.1 No starting time for individual classes will be attached to the show program, only the starting time for the first class of the day. It will be expected of all exhibitors to take note of the order of the classes and be ready on time.

11.2 The sequence that horses enter the arena will be according to the catalogue and will be set up by the ring steward and or gate marshal.

11.3 Horses to be shown at a walk and trot. Horses must also be viewed in motion from the side by the judge.

11.4 Horses shall be judged in priority of:

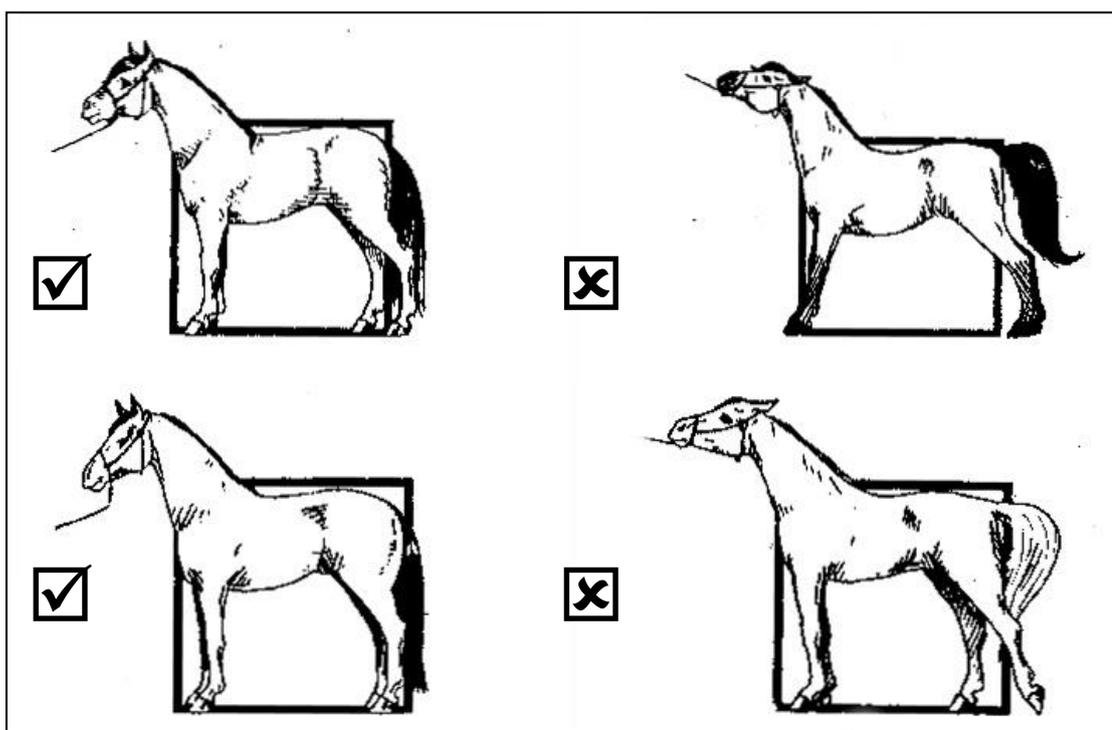

1. Conformation

2. Movement

3. Presence

4. Type

11.5 The horse should be displayed to the judge with all four feet flat on the ground and at least one front and one rear leg remaining perpendicular to the ground. See sketches for acceptable stances. It is permissible to hand set the horse. Horse's legs may be extended but may not be stretched.

11.6 **Arena pattern:** All participants enter the arena on a trot; hereafter the horses and handlers line up head to tail with the horse in front of it. Judges have the opportunity to judge conformation in a stationary position, where after the triangular pattern is followed clockwise;

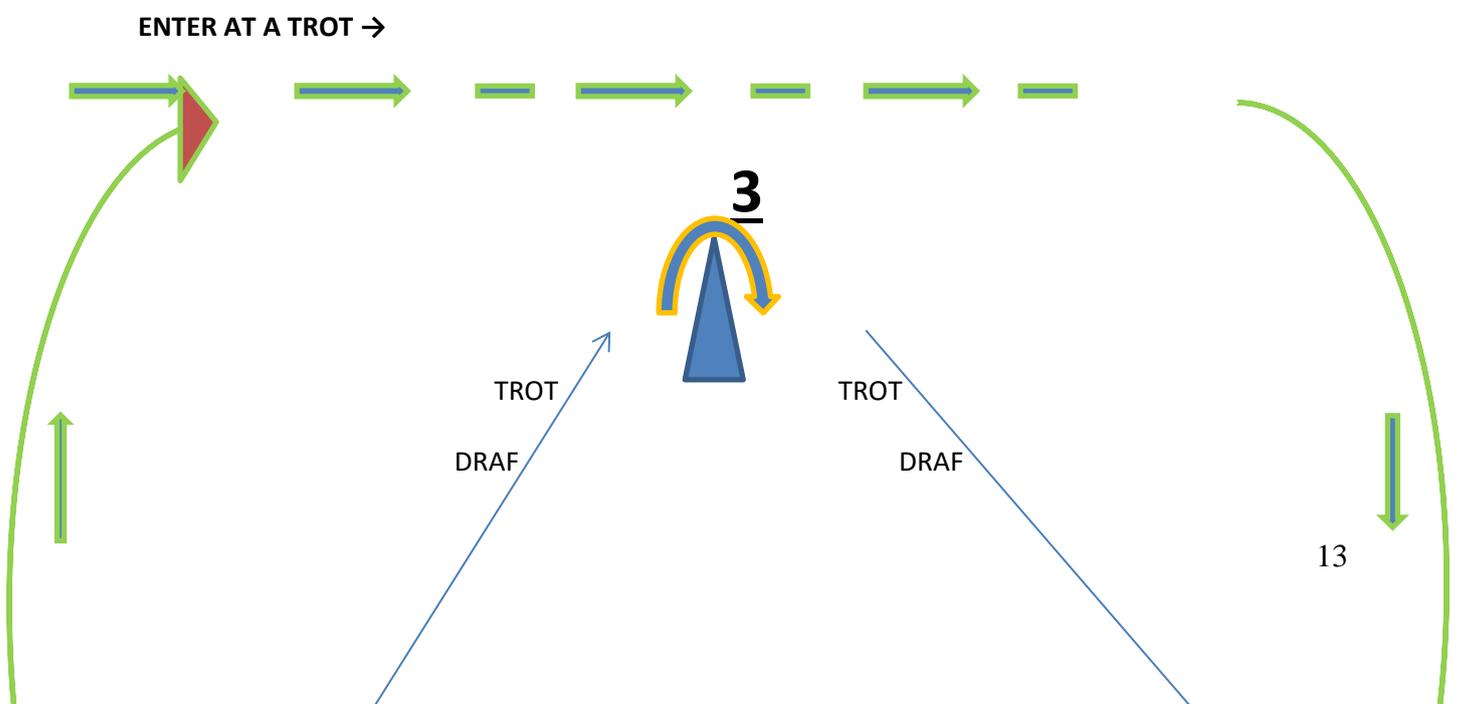

- Move to cone 1, where the judge will be standing.
- Walk from cone 1 to cone 2.
- Trot from cone 2 to cone 3 with the handler on the outside /pavilion side of the horse.
- Trot back from cone 3 to cone 1 and trot past the judge/s allowing the judge/s to see the horse's movement from the back. Return to original standing position.
- Move back to cone 1 and return to original standing position.

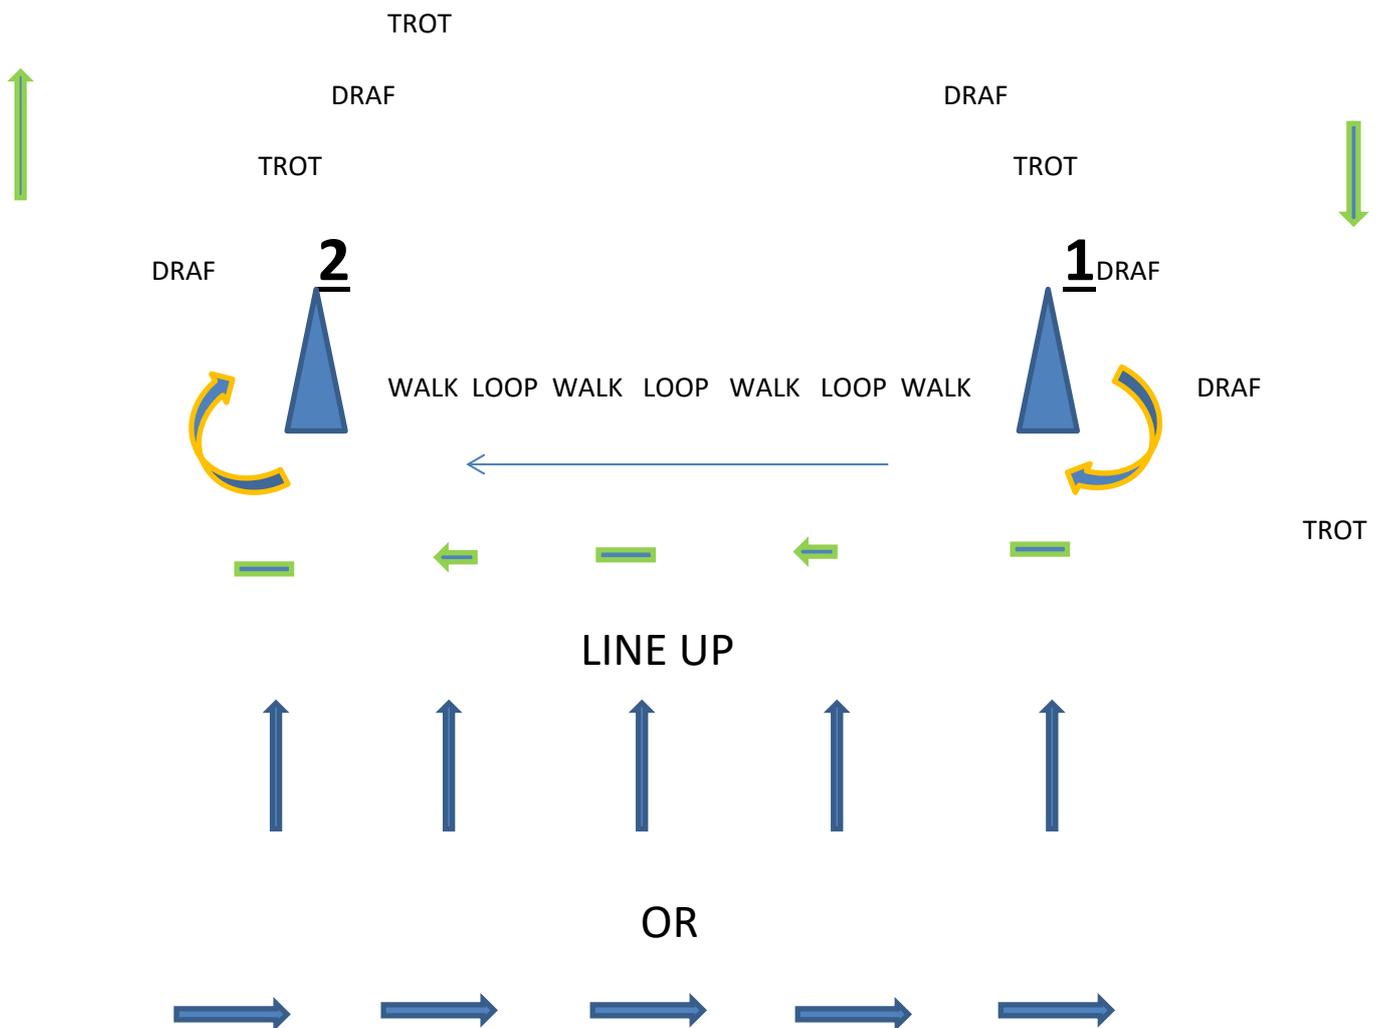

Stewards have to inform competitors of this during every show.

The judge/s must be given the opportunity to see the horse's movement during walk and trot in cases where no cones can be used.

ARENA PROCEDURES

ARENA PROSEDURE

Where the Line-up takes place and where the cones are placed will be influenced by the size of the class, the going, where the gate and pavilion are and will be at the discretion of the Judge on the day and will be conveyed to competitors by the Ring steward.

- 11.7 In the case of two animals being judged equal, the higher placement shall be awarded to the smaller animal. In no case, however, shall a smaller horse be placed over a larger horse with better conformation.
- 11.8 Judges should not be prejudiced to the horse of his/her background.
- 11.9 The judge/s may stand any horse/s up in any way he/she wishes. Handlers may dictate the preferred distance between the horses.

14. RIDING CLASSES – LEAD REIN

Judges should be creating a launch pad for correct training of both the horse and rider, looking for a horse and rider that are in harmony and enjoying the class they are competing in.

Lead rein classes are the very foundation of the ridden showing world, they are the building blocks of the future and as such great importance should be attributed to the horse in order of manners, way of going, suitability and conformation.

You would look for the following in a lead rein horse :

- a good walk and always with a correct 4-time beat
- they should not be over bent and must have a steady head carriage
- They must have a quality and presence that says “look at me!”
- Leaders should be positioned at the shoulder, neither dragging nor holding the pony back and there should be a reasonable length to the lead rein.
- The correct hand to hold the lead rein in is the outside hand, so the inner hand may be used in an emergency situation to help the young rider.
- The transitions in a lead rein horse should be smooth and the trot not overly extravagant.
- Attention should be paid to make sure the outline of the horse is soft and supple showing no tension or resentment.
- Manners of the horse are very important so as to insure the safety of the rider

THE FOLLOWING TO BE TAKEN INTO ACCOUNT :

- The capability and performance of the competitor
- Horse and competitor should be well suited in size
- The horse **must** be shown in a snaffle bridle with a lead rein attached to the cavesson noseband.
- Turnout of horse, rider and handler
- Riders may compete from the beginning of the calendar year in which they turn two to the end of the calendar year in which they turn eight.

RING PROCEDURE :

- All riders enter the arena and circle in a clockwise direction at a walk.
- Horses will be required to walk individually beside the handler
- Call in, in order of preference and line up from left to right
- Call forward singly to be examined
- Individual show – only walk and trot (at the discretion of the handler)
- Circle at a walk
- Call in and line up, placed in order of merit from left to right for the presentation of the prizes

15. DRIVING CLASSES. RULES, CLASSES, GUIDELINES AND DESCRIPTIONS

15.1 GENERAL DRIVING RULES.

Horses to enter the ring at a trot. Horses must be serviceably sound and all driving horses must be 3 years or older.

- 15.1.1** Drivers should strive to present an appropriate turnout indicated by the balance and pleasing appearance of the combination of the horse to vehicle. Factors determining the above include compatibility, size, type of horse and vehicle. The way of going of a horse may also affect the overall appearance. The horse's number should be worn on the back of the driver or on the back of the cart. Where there is a lack of balance or imbalance of the size of the horse with regard to the cart and driver, or where tack is ill fitting, or unsafe, the judge may eliminate the competitor.
- 15.1.2** The only person to control the horse is the driver, under penalty of disqualification. No change of driver is permitted during any class.
- 15.1.3** Drivers should conform to the type of turnout (i.e. Presentation, formal, obstacle etc.) should always be neat and clean. 16.8 SCORING.

In scoring jumpers, a combination, (in and out) is to be considered as two (2) jumps but one obstacle. Jumpers are to be scored in a mathematical basis and penalty faults include knockdowns, refusals, and eliminations as follows:

Knockdowns - an obstacle is considered knocked down when in jumping an obstacle, a horse or handler, by contact, lowers the established height or width of the fence in any way.

16.8.2. Refusals: 4 faults.

Each refusal is four (4) faults. A refusal is defined as stopping at an obstacle whether or not it is knocked down. It is penalized as a refusal. Stopping at an obstacle without knocking it down and without backing (even a single step), followed by jumping from a standstill is not penalized. However, if the halt continues or if the horse backs even a single step, takes a step sideways, or circles to retake the fence, a refusal is incurred. A run-out or refusal means that the horse must re-jump that obstacle at which the refusal occurred or be eliminated.

16.8.3 Circling after crossing starting line: 4 faults.

Circling: any form of circle or circles whereby the horse crosses its Courses should be attractive, varied, and appropriate to their setting. Jumps may include brush, triple bar, water, and similar jumps. Solid obstacles are not permitted. Brush jump must have a visible bar on top or beyond. There will be a minimum of four (4) obstacles, with horses to jump a minimum of 5 (five) jumps and a maximum of 9 (nine jumps.)original track between two (2) consecutive obstacles or stops advancing toward or turns away from the next fence except to retake an obstacle after a disobedience.

16.8.4 Crossing your own path (as in circling between fences): 4 faults.

Crossing your own patch is classed and penalised as a refusal. A horse that has been penalized for circling cannot then be penalized again for crossing its own path at the same obstacle.

16.8. 5 Off Course. Elimination.

Any horse that does not take the jumps in the numerical order that they are set out, or that fails to take a jump is considered off course.

16.9 ELIMINATION.

Causes for elimination:

- a. 3 refusals
- b. Off course
- c. Fall of horse. A fall is when all four the horses feet are off the ground and any part of its body is touching the ground. Stumbling is excluded.
